## NOTES

- **Daily physical activity block** is offered to all grade levels every day from 3:00 - 4:00pm.
- As a **reminder**, children should be picked up **after** their enrichment time to maximize their out-of-school-time learning.

# ENRICHMENT CLASS DESCRIPTIONS

CLASS	DESCRIPTION
Little Chefs	Welcome to a kitchen filled with giggles, imagination, and good food! Our little chefs learn to measure, stir, and decorate while discovering how fun cooking can be. We taste new things, make sweet and savory treats, and celebrate our creations with big smiles and happy tummies.
Me, You & Glue	Artists get to cut, glue, paint, and create with BIG imagination! Each week, we explore themes and fun materials as we make playful crafts to take home.
Brushes & Beats	Students will explore different artistic styles and musical rhythms from painting and drawing to singing, drumming, and dancing! With fun projects, hands-on instruments, and lots of imagination, students will build confidence, coordination, and creativity in a playful, supportive space.
Stem Explorers	Students become creators, builders, and thinkers as they explore the world of STEM! We use everyday materials to design, test, and improve our projects while learning to collaborate, experiment, and try new ideas. Every child is a problem solver—and every week is a new adventure!
Crafty Crew	Students will be able to get a hands-on experience with various styles, including drawing, painting, sculpture, and mixed media, allowing students to express their creativity, gain confidence and develop new skills.
The Snack-Pack	In our cooking club, young chefs get to explore the magic of food! We work together to make simple snacks and playful recipes, learning new skills along the way. From stirring bowls to sprinkling toppings, every moment is full of creativity and delicious fun. Cooking has never been this exciting—or this tasty!
Creative Crew	Young artists come together to imagine, design, and create! Students explore new materials, experiment with techniques, and express their creativity through colorful, hands-on projects. We build confidence, style, and skill—one artwork at a time!
The Brainy Brunch	Students will be able to work on hands-on experiments, cool building challenges, fun games, and problem-solving activities that make learning fun. This club is all about teamwork, discovery, and using your knowledge & imagination to explore the world around you!
