NOTES

- **Daily physical activity blocks** are scheduled for all groups, rotating between the gym and outdoor spaces. Every child has the opportunity to participate in physical activity, regardless of their chosen enrichment class.
 - 4:00-4:45 - Bagels, 2:45 -3:15 - Churros, 3:15 - 4:00 - Munchkins, 1:50-2:45 - Cannoli's,
- **On Fridays**, we wind down the week with "**Fun Fridays**," giving kids a chance to relax and enjoy enriching group activities!

ENRICHMENT CLASS SCHEDULE

CLASS	DESCRIPTION
Past & Pottery	Children will learn about different structures and techniques in pottery and sculpting. They will use what they've learned and apply it to their own creations, making a collection of different items. They will also learn about pottery and sculptures throughout history and what significance they have to cultures around the world today.
Rhythm Rangers	Children will learn about different dance styles and practice them. They will then take what they've learned and in groups develop their own choreography and dance routines. They will get to pick their music and help instruct each other when practicing their performances.
Game Changers	Children will design their own board and card games to share with their friends. They will plan, design, and create at least 3 different games over the semester, and be able to try them out with their peers. Children will be able to observe and learn from their peers what works well for a game and what might need to be adjusted in order to make a fun, complete game for the entire class to enjoy!
The Five Senses	Children will create arts and crafts based on each of the senses. They will explore sensory material and create their own sensory kits.
Rhythm Makers	The students will learn all about music, why people listen to it, how its created and how it can be different for every culture. They will have a small introduction to music itself (rhythm, sound, fast, soft, etc). They will then make their own instrument and "perform" to their classmates. (how music relates to feelings, dancing and culture)
Fish & Friends	The children will learn all about fish, their environment, and ecology. They will learn about a new fish each week, and bring them to life with arts, crafts, & games. We will also learn to take care of a class pet fish.

ENRICHMENT CLASS SCHEDULE

CLASS	DESCRIPTION
Crafty Creators	This club will be arts & crafts focused. Each activity will help the children to develop imagination, creativity, fine motor, and planning skills. They will explore a vast array of materials, & projects. In the end, they will be able to reflect on all of their personal creations.
Car Mechanics	Children will learn all about cars, how they work, what they can look like and eventually design and make their own dream cars. Each week, we will focus on new parts of the cars, like wheels, designs, etc.
Master Artists	Each week, the children will learn how to draw their favorite things and characters. They will be able to learn how to draw together and learn fine motor skills. (learning to color inside the lines, and learning to draw simple shapes with more form.
Disney Claymation	Hands-on activity focused on sensory play skills-building and creativity. Each week, children will build their favorite Disney characters from play-doh & clay. Each child will have the opportunity to present their creations to the class if they wish.
Bright Minds	This club will encourage the children to imagine, create, and explore. We will work on our problem-solving and creative skills while engaging in STEM activities & games.
